 - Any chaperones not affiliated with the school/group will be charged at the front desk upon arrival. The cost is the same as the child's cost for the visit.
- *** Special Pricing available for Title 1 schools as part of our Explorium Experience Fund!

EXPLORIUM ENRICHMENT!

No Field Trip to The Explorium is complete without an Enrichment Program! Enrichment Programs enhance the field trip experience for students and teachers.

The Human Body: Students explore the inner workings of the human body through the help of our over sized friend Stuffee. Together we learn about our major organs and their functions and eventually help put Stuffee back together.

The Science of Clouds: Students participate in experiments to learn how clouds are formed, what makes lightning and what is more likely to be struck by lightning. Together we will make clouds in a jar, produce our own lightning, and test different conductors and insulators with a Tesla Coil.
